

# S-Lite

The modern, durable solution for  
skylight replacements in New Zealand.

# S-Lite

The modern, durable solution for skylight replacements in New Zealand.

The S-Lite is a practical, cost-effective skylight designed specifically for replacement projects. With a thermally improved profile and durable construction, it offers better performance than traditional skydomes while keeping installation simple. Available in all Skydome standard sizes as well as custom sizes, the S-Lite can be fitted to any upstand for maximum flexibility.

The S-Lite is also highly suitable for low-pitch applications. However, we caution that at pitches below 2 degrees, water may bead on the glass surface when wet.

## Features & Benefits

- › Double-glazed for improved insulation
- › Stronger and longer-lasting than acrylic domes
- › Better thermal performance with a thermally improved profile
- › Flat design for a cleaner, modern aesthetic
- › Available in both standard and custom sizes
- › Suitable for low-pitch applications

# How to Measure

## Need a replacement?

Need to replace your old skylight or roof window? Adlux has an extensive supply of replacements in all designs and sizes (including non-standard sizes) for all existing brands. Competitively priced, we offer a fast and reliable service and all Adlux quotations are absolutely free.

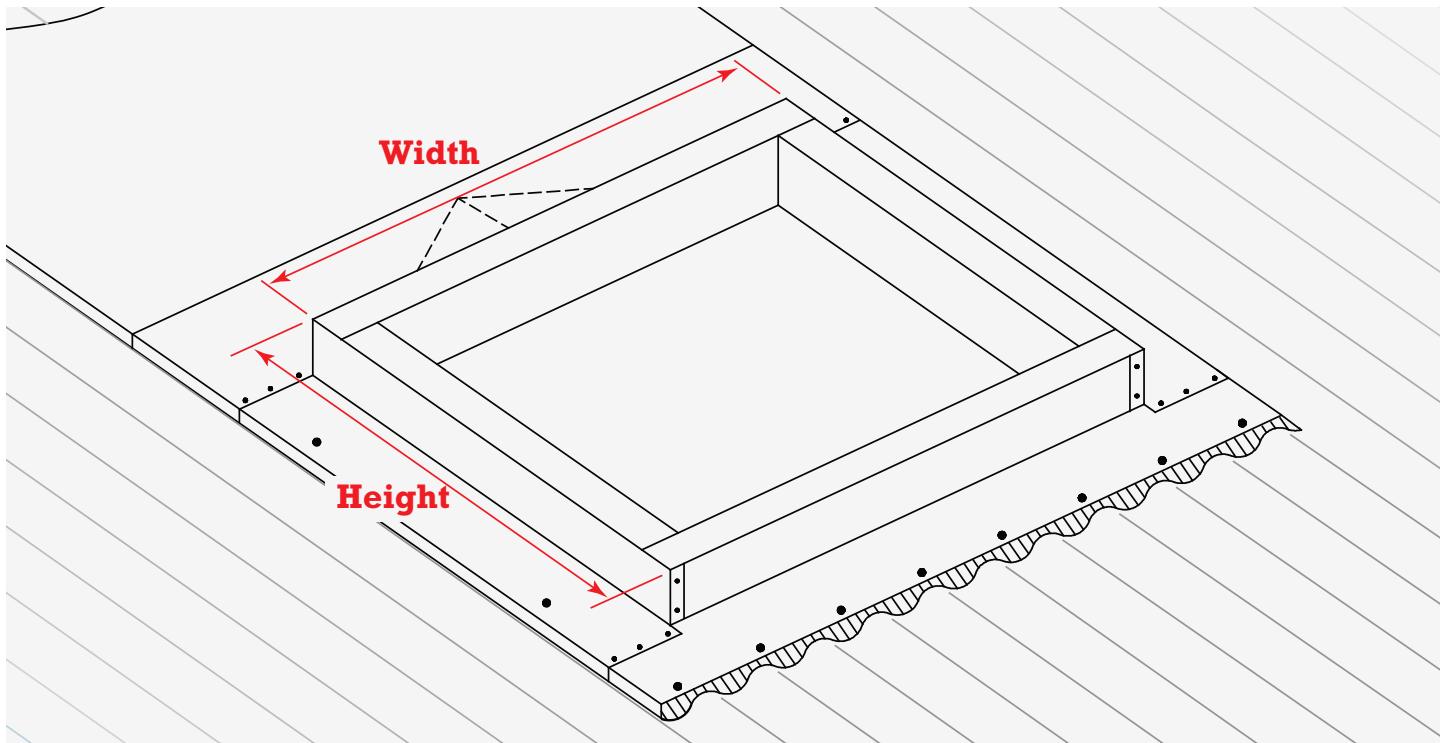

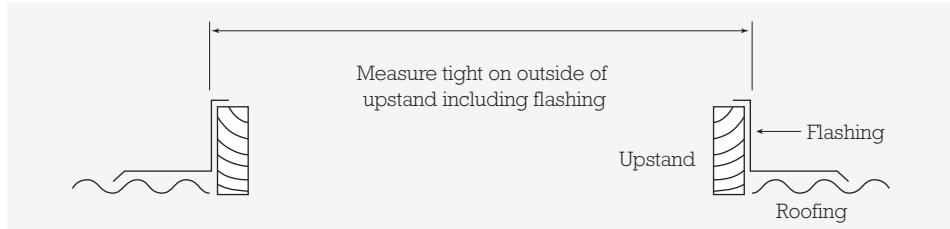

S-Lite Standard Sizes		
Name	Replaces Skydome	Upstand Flashing Measurement
<b>SL.55</b>	S4	510x510
<b>SL.88</b>	S5	815x815
<b>SL.118</b>	S3	1090x790
<b>SL.1111</b>	S2	1110x1110
<b>SL.1710</b>	S1	1660x1000

## Replacing is as easy as 1, 2, 3

- 1 Measure tight on outside of upstand of your old skylight, including flashing. Then email these measurements and a photograph of your skylight to [sales@adlux.co.nz](mailto:sales@adlux.co.nz).
- 2 Adlux will issue a dimensioned drawing for your approval and order, for Adlux to manufacture.
- 3 On receiving your new Adlux Skylight, simply screw it into the outside of the existing upstand and installation is complete.

## Extra Measurements (recommended)

1. Take a diagonal measurement across the upstand to check it is square
2. Note down other measurements such as the height and thickness of the upstand
3. Take several photos for reference

**At Adlux, we believe there's life to be found in every home. Our joy is in bringing yours to light.**

As a family business with a friendly and capable team, we specialise in the design, supply, and installation of a range of window, lighting, outdoor, and roofing solutions for residential and commercial projects.
